

Sr UI Test Automation Engineer

Job description

CloudSimple is the international product company with the HQ in San Francisco Bay Area. CloudSimple has world-class leading investors including RedPoint, Mayfield, and Microsoft Ventures. We are building a large scale distributed platform that deploys and manages private software-defined data centers fully integrated with world-leading public clouds.

We are looking for a strong self-motivated Web UI Software Test Automation Engineer with passion for quality and automation.

Responsibilities

- Analyze feature requirements and end-to-end, UI/UX user scenarios, and prepare test plans with detailed test cases. Define release criteria for feature release, and ensure comprehensive test coverage
- Develop test automation based on the test cases, and integrate them into the existing automation test framework.
- Independently design large scale test infrastructure to cover all levels of test (e.g. security, performance, memory footprint, cross-browser compatibility, etc.)
- Communicate test results and highlight any potential quality risks from the automation test results
- Interact with software and UI developers to tune code and track all problem reports to closure

Required skills and experience

- 3+ years of proven experience developing UI test automation of software products by using NodeJs, JavaScript or other similar scripting language; knowledge of TypeScript is a plus
- Past experience working with Protractor and Selenium WebDriverJS
- Working knowledge of the Angular UI framework
- Good knowledge of RESTful API principles
- Familiarity with version control tools (e.g. git/GitHub), CI tools (e.g. Jenkins), code review tools (e.g. GitLab), issue management and bug life cycle (e.g. Jira) and automation dashboards
- Strong English written and verbal communication skills to work with the CloudSimple global team
- BS or MS in Computer Science or other related majors

What we offer:

- International environment with great people to work with
- Unique project with modern technologies
- Opportunities to make a difference and grow professionally
- Competitive compensation
- Long term employment with paid vacation
- Sports and healthcare package (medical insurance, paid gym membership)
